## **United in Achievement**

At Columbus Collegiate Academy - West (CCA-W), we measure proficiency longitudinally in terms of annual progress on Ohio State Tests and interim progress during the school year on the i-Ready assessment in reading and math.

---

## Measure 1: Ohio State Testing

The Ohio state tests are administered annually to measure student proficiency on state-mandated academic standards for each grade level. The state tests allow CCA-W to compare their results with Columbus City School District (CCSD) as well as schools across Ohio.

### *District and State Comparison*

The Ohio State Tests were administered in the spring of 2023. Below are the proficiency rates for each tested grade and subject.

	6th Grade	7th Grade	8th Grade
Reading	31.0%	35.6%	44.6%
Math	31.0%	26.8%	28.1%
Science	n/a	n/a	60.0%

CCA-W students outscored their neighborhood peers in every tested subject area and outperformed their district peers in 7 of 8 tested areas.

### *Similar School Comparison*

In order to consider our academic progress in context, CCA-W evaluated its rank by performance index compared to the Columbus and Southwestern district schools students could attend if not enrolled at CCA-W. Each school in the table below has an economic disadvantage rate of 100%.

Rank	Building Name	Type	District	PI Score /110.3	Grade Span
<b>1</b>	<b>CCA-West</b>	<b>Community</b>	<b>CCA-W</b>	<b>62.4</b>	<b>6-8</b>
2	Wedgewood Middle School	District	CCS	53.9	6-8
3	Starling PK-8	District	CCS	44.2	PK-8
4	Hilltonia Middle School	District	CCS	43.9	6-8
5	Westmoor Middle School	District	CCS	42.6	6-8

## Measure 2: i-Ready

CCA-W students take the i-Ready diagnostic assessment in the fall, winter, and spring each school year. The i-Ready assessments are state-aligned, computer-adaptive tests that accurately reflect the instructional level of each student and measure growth over time.

The assessment itself is unique in that it adapts to the student's ability, accurately measuring what a child knows and needs to learn. The diagnostic assessment pinpoints students' needs in reading and math down to the domain and sub-skill level by using sophisticated adaptive logic, and a bank of thousands of test items. Millions of test records have been collected over the last several years which allows us to compare our students' scores and growth with those of 6th, 7th, and 8th graders across the United States.

### *Grade Report*

This table shows the percentage of students who met their annual growth targets.

	6th Grade	7th Grade	8th Grade
Reading	58%	46%	67%
Math	60%	54%	68%
